Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Invention I: Claims 1-11 are drawn to a method, computer program and computer program stored on a data carrier for implementing financial investment in stocks and shares or other financial entities using a host website, classified in class 705, subclass 37.

Invention II: Claims 12-22 are drawn to method, computer program and computer program stored on a data carrier for attracting internet traffic to a website comprising a game that involves trading in virtual stocks, virtual shares or other virtual financial entities, classified in class 273, subclass 256.

2. The inventions I and II are distinct, each from the other because of the following reasons:

Inventions I and II are related as sub combinations disclosed as usable together in a single combination. The sub combinations are distinct from each other if they are shown to be separately usable.

In the instant case, invention I relates to a method, computer program and computer program stored on a data carrier for implementing financial investment in stocks and shares or other financial entities using a host website, whereas invention II relates to a method, computer program and computer program stored on a data carrier for attracting internet traffic to a website comprising a game that involves trading in virtual stocks. The method of invention I can be performed by a system configuration different from what is claimed in invention II. Hence invention I has a different utility and scope than invention II. Because these inventions

Art Unit: 3624

are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

3. Telephone call attempts were made to Mr. Thomas Galgano on February 15, 2006, to request an oral election to the above restriction requirement, but did not result in an election being made.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

Conclusion

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Olabode Akintola whose telephone number is 571-272-3629. The examiner can normally be reached on M-F 8:30AM -5:00PM.
